Built a reusable 40+ component UI library and cut Core Web Vitals (LCP/CLS) by 35%. Currently freelancing on client projects and building backend services with **Node.js** and **Fastify**; open to full-time senior roles.

EXPERIENCE

Freelance Senior Front-End Developer | Self-employed — Mar 2026 – Present

Front-end development for international clients. Selected: luxury e-commerce storefront for the Italian market (2026).

- Developed the storefront with **Next.js 16** (App Router, RSC), **React 19**, strict **TypeScript** and **Tailwind CSS** v4, implementing responsive Figma designs.
- Built reusable UI with **Shadcn UI** and validated forms with **React Hook Form** and **Zod**; managed server data with **TanStack Query** (SSR prefetch and hydration) and a persisted cart with **Zustand**.
- Implemented technical SEO: SSR/SSG pages, per-page metadata (canonical, Open Graph), JSON-LD structured data, sitemap and robots.
- Built a booking/appointment scheduling backend with **Node.js**, **Fastify** and **MongoDB** (personal project), using AI-assisted development.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Shadcn UI, TanStack Query, Zustand, React Hook Form, Zod, Node.js, Fastify, MongoDB, Claude Code

Senior Front-End Engineer | Quarkino (Barcelona, Spain – Remote) — Oct 2023 – Mar 2026

Low-code/no-code platform for designing, hosting and scaling full-stack web applications.

- Built a reusable UI library / design system of 40+ components with Next.js, Tailwind CSS and Shadcn UI, reducing development time by 60%.
- Led the transition to a **TypeScript**-first architecture, eliminating critical runtime errors across the builder.
- Designed server-state and client-state handling with **TanStack Query** and **Zustand**, integrating REST and GraphQL APIs and reducing redundant API requests by 40%.
- Improved Core Web Vitals (LCP/CLS) by 35% through rendering profiling and bundle analysis; applied WCAG 2.1 AA across the component library.
- Kept quality high with **Vitest** and **React Testing Library** tests, code reviews, Husky pre-commit linting with axe-core checks; monitored production with **Sentry** for 3,000+ active users.

Tech Stack: TypeScript, React, Next.js, Tailwind CSS, Shadcn UI, TanStack Query, Zustand, GraphQL, React Hook Form, Zod, Vitest, React Testing Library, Sentry, Husky, axe-core

Front-End Developer | iToll — Mar 2022 – Sep 2023

Leading car service platform specializing in digital insurance and payment solutions.

- Collaborated with backend, design and analytics teams to redesign the digital insurance purchase flow end-to-end, reducing user drop-off by 60%.
- Built a reusable, cross-platform component library in **Vue.js/Nuxt.js** with responsive layouts.
- Designed a Vuex state architecture fixing data-persistence and back-button issues for 1M+ users.

Tech Stack: Vue.js, Nuxt.js, Vuex, JavaScript (ES6+), REST APIs, CSS3/SCSS, Sentry

Front-End Developer | Buzzjective (Remote, Germany) — Sep 2020 – Feb 2022

Tech solutions and web applications for startups and SMEs.
